

HAZE FABRIC

The Haze fabric is a very soft, woven textile. Softness, volume and elegance are characteristic of this fabric.

With chenille in both warp and weft, you will find Haze as luxurious in both look and feel. Note that because Haze is completely in chenille, shading, or so-called seat roses, can occur.

Composition: 100% pes. Dry clean.

MAINTENANCE

Brush gently with a clean, soft brush; first against the pile direction and then with the pile direction.

Repeat several times and for best results, always brush an area larger than the shading itself.
