

Modular sofa MONTANA

Straight lines and edge piping make Montana give a grand impression. The combination of two highly flexible foams in the seat cushions makes this sofa especially comfortable.

A stylish and strict sofa to curl up into and enjoy the softness.

A modular sofa is perfect for any manner of lounging and it will make the most of your space! Simply because you oversee the shape and mould it to your personality and style. Tie two spaces in your home together by using the same look but in different configurations. The upholstered back lets you put the sofa in the middle of the room.

Let the sofa shape-shift around your needs, you can even let the sofa change shape during the day!

Height: 42 cm	Height: 42 cm

FABRIC

Montana is available in different qualities and several colours. Please contact info@artwood.se for more information.

FILLING/FRAME

High-resilience foam increases the strength and elasticity of the seat, preventing deformation. This type of filling is made from silicone down, which retains the properties and softness of feathers, but eliminates unsightly kneading and allergenic properties. This filling ensures the highest comfort.

Beach frame with nozag springs.

MAINTENANCE

Furniture that is placed in direct sunlight risks fading. Turn pillows regularly to maintain their shape and appearance. It is necessary to regularly puff up and shake the pillows lightly to distribute the filling. Vacuum the furniture regularly. Dust and fibres from carpets and decorative pillows as well as hair from pets can cause pilling of the fabric. Treat with a textile impregnation to keep the furniture nicer for longer and more resistant to stains and dirt. Dry cleaning is recommended.
